WE'RE UP AND RUNNING...

Launch of 1st Edition of the National Call News~Wire!

Welcome to our inaugural issue of the National Call News~Wire. The News~Wire will be published monthly, summarizing what we've covered on The National Calls within the prior month. We hope you like this format and welcome any comments for improvement. Do share this News~Wire with your lists so that they also are informed about our current news and alerts. The recordings are sent out separately to those subscribed to The National Call and are copyrighted.

Will you answer The National Call to action?

QUOTE OF THE MONTH

"RAINBOW LORIKEETS DROPPING FROM THE SKY,"
Arthur Firstenberg

Hundreds of lorikeets, exotic rainbow-colored parrots, were reported falling from the sky along the coast of Brisbane, Australia. Is history repeating itself...once again, *trying* to tell us something? In 2019-20, many lorikeets fell from the sky when the first 5G towers were activated - close to 1,500 of these birds, later noted as having the mysterious 'Lorikeet Paralysis Syndrome.' Certificates of compliance with wireless safety as a condition for a cell tower permit have been executed by defunct companies, which is fraud, and companies were not even listed on OFCOM (FCC equivalent); reporting to authorities; notices are being sent out to all town councils.

National Residence Association is a national web of information, knocking on doors and give people the facts. Reported that a body compound that is depleted by wireless radiation causes an increase in ADHD and autism.

FCC measurements on FCC limits only measure short term heating, averaged over 6 minutes for the public and 30 minutes for occupational workers; does not measure long term effects, duration, or modulation of exposure to wireless radiation. Countries with better laws for transparency: France and Switzerland.
