## QUOTE OF THE MONTH

Solutions:

Restore liability for manufacturers and telecom to allow the free market to operate

Restore cooperative federalism under the TCA and recognize states' and local rights to make decisions about their infrastructure

Create safety limits and oversight to protect the public

Ensure taxpayer broadband funding is spent only on future proof wired broadband.

~~Comments of Advocates for the EMS Disabled, National Call for Safe Technology to the White House Justice Advisory Council (WHEJAC), October 23, 2024

"A global endeavor that will kick-start a new era for the EMF-Disabled. There are millions of us now, and yet our powerful messages to the world are being diluted by a multiplicity of terminologies... We are on the precipice, knocking loudly at the door. If we want that door to swing open, we must come together as one."

- HR 1339 passed on suspension 4.26.23 Precision Agriculture Connectivity Act: Requires FCC to determine how it can use rule making to promote satellite use for precision agriculture [would require cows to swallow sensors, like a cell phone, to be radiating permanently from their stomachs].
- HR 1123 - passed on suspension 3.7.23
- Understanding Cybersecurity of Mobile Networks Act - expressly excludes the most insecure mobile network - 5G.
- HR 1353 - passed on suspension 4.25.23 Advanced Local Emergency Response Telecommunications Parity Act - requires FCC to make spectrum available to any underserved area.
- HR 682 - passed on suspension by voice vote 7.25.23 Launch Communications Act: Make spectrum available for commercial satellite launches.
- HR 1752 - passed on suspension 3.11.24 E-Bridge Act: Allows Sec of Commerce to make broadband grants available.
- HR 6492 - passed on suspension by voice vote 4.9.24 Expanding Public Lands Outdoor Recreation Experiences Act (EXPLORE Act): Omnibus federal lands bill that incorporates HR 5919 (Connect Our Parks Act) and authorizes installation of broadband in National Parks on recreational areas; allows Dept of Interior to deputize industry consultants to approve and oversee wireless installations.
- HR 4510 - passed on suspension 5.15.24 Subordinates the Pentagon to centralized authority of the NTIA and FCC by requiring them and other federal users (e.g., FAA) to first submit comments to NTIA who will filter and summarize them for FCC. For DOD, creates

security risks and risks connectivity interruptions for DOD operators (launch sites, etc).

Incorporates HR 1123 which excludes 5G networks from a cybersecurity study on mobile networks, the most insecure of all predecessor networks (see Sec 405(d)(2)). Former FCC Commissioner Tom Wheeler has characterized 5G as a "The CyberParadox" b/c 5G wireless is inherently insecure, so to exclude 5G makes this bill a potential waste of tax payer dollars.

- HR 1513 - passed out of Energy & Commerce Committee 5.14.24, can be voted on any day now. Creates an FCC 6G task force to create plans for 6G deployments. Should be amended to include study of health and environmental impacts?
