QUOTE OF THE MONTH

"Children and their parents in every community are bearing the entire risks of digital products and services without being informed and without their consent and for the profits of the purveyors of these products. This is a fundamental miscarriage of justice and human rights that affects all children. A fundamental shift in values is required where the protection of children, who are the stewards of the future generations, comes first."

-- Julian Gresser, Human Rights Attorney and Primary Author of [The Children's Declaration of Rights in the Digital Age](#)

CHD EMR & WIRELESS TEAM

Focusing on privacy & surveillance this quarter with *lots of new* assets & info to view and share!

LED LIGHTS

FL: [Mark Baker, President of the Soft Lights Foundation](#) filed a suit against the FDA and the US Traffic Safety Administration for violation of the US Code regarding hi-powered LEDs. The Code calls for the establishment of anti-radiation program for the health of the community 10.23.24

WHAT YOU CAN DO TODAY!

Send NHF's email to your Legislators:

[We Can Defeat Telecom's Prison!](#)

Schedule 30 min. Zoom Meeting ASAP!
[Find your legislature](#) or [Enter your zip code](#)

CALL ✓

CAPITAL SWITCHBOARD
202-225-3121

ASK ✓

For your Elected Official, then Ask for the Telecom Staffer
if n/a then the scheduler.

Purpose of call:

Your name...

"I am a constituent and would like to discuss wireless bills & bridging the digital divide."

[Mark Baker on the Edison Report](#)

[Blinded by LED Lights: A Driver's Problem](#)

This is a major worry with LED lamps that are increasingly being installed in cars, often replacing the old-style halogen bulbs that have a very different color spectrum and beam patterns, to the dismay of fellow road participants.

US Access Board [October 30, 2024 Meeting Report](#)
<https://tinyurl.com/dpywwb6k>

(See timestamps for re-caps):

41:57 Dr. Michael Royer, Chief Engineer Pacific NW National Lab discussed how temporal light modulation aka flicker is harming building occupants

42:40 Dr. Jill Corban, Founder/Dir. of The Neurodiverse Connection, UK (also late stage autism dx) discussed understanding neuro-divergent experience of lighting and practice/policy implications

43:43 Beth Noble, Accessibility Consultant

COORDINATE WITH ✓

Odette Wilkens,
Chair of the
National Call

and

Charles Frohman,
The National
Health Federation

They will present
federal bills

INVITE ✓

Other
Constituents,
Local Officials,
City Council
Members, Mayor

CONNECT WITH ✓

Folks in your
adjoining state
districts, and
neighboring states
to contact their
electeds

FOLLOW-UP ✓

Charles will email
staffer with target
points from the
meeting

Constituents

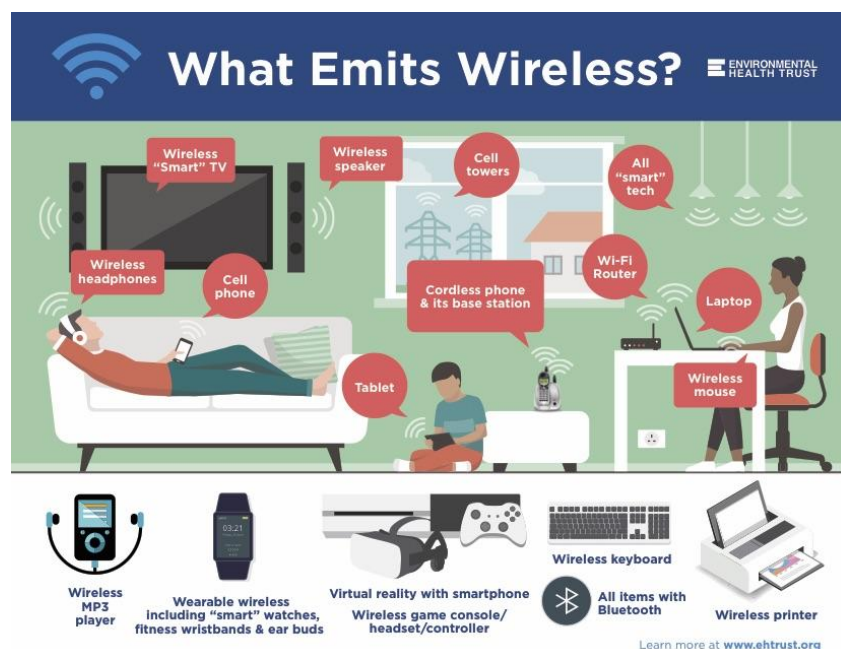

with B-Lab, New Zealand, reviewed her research study and provided an understanding of autistic people's perceptions of lighting in the context of research and technical parameters

ENVIRONMENT

ENVIRONMENTAL HEALTH TRUST (EHT)

Launched a [new website about the effects of wireless radiation on wildlife.](#)

HEALTHY TECH AT HOME PROJECT

The widespread use of wireless technology is rapidly increasing children's exposure to radiofrequency (RF) radiation, a type of electromagnetic field (EMF).

DO YOU KNOW ANY REALTORS?

Tell us and invite them to the Federal Bills Meeting held every Thursday, 4-

MOVING FAST!

Need individuals in each state to contact their federal Reps/Senators, and adjoining districts.

See **ACTION ALERT** for what you can do!

BILLS THAT NEED IMMEDIATE ATTENTION:

- SUPPORT HR 8082 Will nullify the small cell order
- **OPPOSE** HR 8230 NEPA exemptions in national forests - will nullify the small cell order
- HR 1339 passed on suspension 4.26.23 Precision Agriculture Connectivity Act: Requires FCC to determine how it can use rule making to promote satellite use for precision agriculture [would require cows to swallow sensors, like a cell phone, to be radiating permanently from their stomachs].
- HR 1123 - passed on suspension 3.7.23
- Understanding Cybersecurity of Mobile Networks Act - expressly excludes the most insecure mobile network - 5G.
- HR 1353 - passed on suspension 4.25.23 Advanced Local Emergency Response Telecommunications Parity Act - requires FCC to make spectrum available to any underserved area.
- HR 682 - passed on suspension by voice vote 7.25.23 Launch Communications Act: Make spectrum available for commercial satellite launches.
- HR 1752 - passed on suspension 3.11.24 E-Bridge Act: Allows Sec of Commerce to make broadband grants available.

6pm ET.

Cell towers devalue property.

[Children and Safe
Technology](#)

- HR 6492 - passed on suspension by voice vote
4.9.24 Expanding Public Lands Outdoor Recreation Experiences Act (EXPLORE Act): Omnibus federal lands bill that incorporates HR 5919 (Connect Our Parks Act) and authorizes installation of broadband in National Parks on recreational areas; allows Dept of Interior to deputize industry consultants to approve and oversee wireless installations.
- HR 4510 - passed on suspension 5.15.24
Subordinates the Pentagon to centralized authority of the NTIA and FCC by requiring them and other federal users (e.g., FAA) to first submit comments to NTIA who will filter and summarize them for FCC. For DOD, creates security risks and risks connectivity interruptions for DOD operators (launch sites, etc).
Incorporates HR 1123 which excludes 5G networks from a cybersecurity study on mobile networks, the most insecure of all predecessor networks (see Sec 405(d)(2)). Former FCC Commissioner Tom Wheeler has characterized 5G as a "The CyberParadox" b/c 5G wireless is inherently insecure, so to exclude 5G makes this bill a potential waste of tax payer dollars.
- HR 1513 - passed out of Energy & Commerce Committee 5.14.24, can be voted on any day now. Creates an FCC 6G task force to create plans for 6G deployments. Should be amended to include study of health and environmental impacts?

The FCC voted on 4.25.24 on net neutrality

- [We Can Defeat Telecom's Prison!](#)
- Your elected will be hearing the issues for the first time, *so be patient, repetitive, and*

persistent.

- While emailing/signing petition is good, it's insufficient.
- Follow up with phone calls, meetings, and thank you informational emails. Fridays are when legislators are often in their district.

Massachusetts for Safe Technology Monthly Webinar

Wednesday, December 18, 12 Noon ET

[Register.](#)

Citizens and public servants are moving the needle toward safe technology in our communities. Join us to share your inroads and/or be inspired by others!

Hear updates on science, legislation, legal actions, local progress, media coverage, events, tech tips and more!

You needn't be from MA to attend, all are welcome.

January Meeting:

Wednesday, January 15, 12-1 p.m.

ET. [Register.](#)

LETTERS TO THE EDITOR/OP-EDS

ICBE- Scientists Publish an [Open Letter](#) to Indian Govt. Warning Against A Weakening of Cell Tower Regulations

"We strongly assert this new law would violate the rights of individuals, their health and environmental quality...Urgently needed are protective wireless exposure limits for humans and the environment. These limits must be based on scientific evidence rather than on the industry's misdirected needs for expansion and on flawed safety assumptions."
