WE'RE UP AND RUNNING...

We hope you enjoy our February issue which summarizes the National Calls we had in February. We welcome any comments for improvement. Share the National Call *NewsWire* with your lists. The recordings are sent out separately to those subscribed to The National Call and are copyrighted. Ideas for a fundraiser are percolating, and our Video Collage Project is in its final editing stage...Stay tuned!

Will you answer The National Call to action?

Be a part of the ongoing, evolving conversation to put EMF-related illness on the map!

"A global endeavor that will kick-start a new era for the EMF-Disabled. There are millions of us now, and yet our powerful messages to the world are being diluted by a multiplicity of

investment, we show it in spades!"

"Language has its own frequency, we will use words and tactics that educate and motivate the world to join our vision."

TUSCON UNIFIED SCHOOL DISTRICT

Verizon cell tower stopped!

Lisa S., a Certified Building Biology Electromagnetic Radiation Specialist – EMF Wellness Tucson, reports that a Verizon cell tower was close to being approved on the grounds of a local school. However, one of the Board members alerted someone in her activist community.

She shared, "Over the last few days, people from different groups and individuals stepped up in writing comments and turned up at the meeting where the vote was to take place...Robert Berg helped us figure out what was going on... So, HOORAY! We finally stopped a cell tower!"

HOUMA, LOUISIANA

Shari C. reports success in awareness by stepping up her social media digital push. *"There are hundreds more in my area now aware that were not, just a week ago."*
