Neil McDougall Reports...

Scope for US-UK-EU collaboration as there is a simultaneous deregulation of safety standards occurring now!

UK Case Against UK Government Background:

"The case creates the opportunity to put non-thermal effects back on table when decisions about 5G infrastructure are made."

When before a judge, Steven Thomas read ICNIRP guidelines paragraphs stating that, "there are effects to pacemakers and metal implants." The defense then read out a UKHSA paragraph, "there are no health effects from 5G" and claimed UKHSA would have reported if there was a concern arising from this metal implant/pacemaker interaction with 5G to take into account. The defense told the judge, "There would be chaos if planning authorities accepted that they had to take this into account" which rather clarified why they don't want to open the door to admitting that there are unacknowledged risks.

EHT TESTIFIES ON THE NEED FOR SAFE WIRED CONNECTIONS FOR THE \$42 BILLION BROADBAND EQUITY, ACCESS AND DEPLOYMENT (BEAD) GRANT FUNDS

EPOCH TIMES: Your Cell Phone and Other Devices May Be Harming Your Heart. Susan Foster's quote

'Electromagnetic field exposure-induced depression features could be alleviated by heat acclimation based on remodeling the gut microbiota'

"Abstract: Results: Both EMF and HA regulated the proportions of p_Firmicutes and p_Bacteroidota. EMF

exposure caused the proportions of 6 kinds of bacteria, such as g_Butyricoccus and g_Anaerotruncus, to change significantly (p < 0.05)..." Read more [here](#)
